16. Please explain your ratings above, especially if you have AI tools for "other" types of work.  *

Coding explanation was a large part of my AI usage since I'm not familiar with HTML and CSS. I would also ask AI to generate code with specific requirements that are advanced level. For example, generating a slide show using javascript and html. Lastly, if there are bugs, I would ask AI what the problem is since I don't have much background of HTML and CSS.
